

FOR IMMEDIATE RELEASE

GOING PLACES TAKES OFF **AT THE DISCOVERY CENTER OF IDAHO**

Ride a mini hovercraft, guide a blimp through sky hoops, and land an airplane on a flight simulator!

Boise, ID - September 15, 2025 – The Discovery Center of Idaho presents *Going Places* from Monday, September 15, 2025 to early January 2026. Fasten your seatbelts; *Going Places – the Technology of Transport* has arrived!

Created by the renowned Scitech in Perth, Australia, *Going Places* is an interactive science exhibition that explores the technology humans have developed for travel. If you have ever wanted to pilot an airship, ride on a hovercraft, or control traffic in a city, now is your big chance!

“This exhibition has heaps of diversity,” says Erin Seymour, Education Director. “It demonstrates the way mankind has developed new technology to overcome obstacles such as gravity and distance, while providing great fun for children, parents and students.”

Tom Zaller, President and CEO of Imagine Exhibitions states, “Imagine Exhibitions is proud to partner with Scitech to bring *Going Places* to The Discovery Center of Idaho. Human modes of transportation have changed so much in just the past 150 years. It is exciting to present an exhibition that allows visitors to dive deep into these innovations, get behind the wheel (literally!), and speculate on where we will go in the *next* 150 years.”

Explore how different modes of transportation have shaped society and get hands-on with a multitude of challenging interactives. Fly a plane, ride a hovercraft, race your friend on a recumbent bicycle, or learn to fly an airship! YOU are the driver in *Going Places*’ interactive exhibits—providing the chance to experience transportation in ways you never dreamed possible!

As well as exploring the technology that gets us around everyday, visitors will also explore the way that travel has shaped the social fabric of our time. Visitors will even see new technology and get a glimpse of where our future is headed.

With 17 exhibits and eight information kiosks detailing the incredible technology pioneered by humans to make the farthest reaches of our planet accessible, *Going Places* is a wild ride!

The key messages of this exhibition are: observe, understand and use an incredible range of travel

technology to see how it makes our lives easier and better, AND learn how the Earth's awesome size and natural processes, like gravity, wind, currents, waves, friction, and changing landscapes are overcome by the ingenious designs, researched and developed over time.

With so many hands-on exhibits, *Going Places* promises to be a wild ride.

Going Places is open daily to the public Monday – Saturday 10:00am – 6:00pm and Sunday 10:00am – 5:00pm for a limited engagement through early January 2026. Tickets are available to purchase at The Discovery Center of Idaho and www.dcidaho.org.

About The Discovery Center of Idaho

The Discovery Center of Idaho is a private non-profit 501(C)3 organization, whose mission is to inspire lifelong interest and learning in science, technology, engineering, math (STEM) and the arts. Founded in 1988 by the Junior League of Boise, the Discovery Center is Idaho's only hands-on science center, providing new opportunities for the local community to interact with STEM, alongside creating a more scientifically literate, curious and empowered future generation. Alongside hands-on exhibits, the center hosts world-class traveling exhibitions every four-to-six months, various educational programming and more. Visit dcidaho.org for more information.

About Imagine Exhibitions

Imagine Exhibitions is currently producing over 40 unique exhibitions globally in museums, science centers, zoos, integrated resorts, and non-traditional venues, with millions of people around the world visiting our exhibitions each year. In addition to developing successful traveling exhibitions, Imagine Exhibitions designs, opens, and operates permanent installations and venues, and consults on building, expanding, and directing museums and attractions. With decades of diverse experience in the museum and entertainment industries, Imagine Exhibitions consistently develops exhibitions that educate and excite while exceeding attendance goals. For more information, visit www.ImagineExhibitions.com or find us on [Facebook](#).
